Career Objective

Motivated data analyst and web developer with experience in Power BI for data visualization and designing responsive websites. Skilled in front-end and back-end web development, including HTML, CSS, JavaScript, and frameworks. Looking to apply my skills in data analysis and web development to contribute to impactful projects.

Skills

- **Data Analysis & Visualization:** Power BI, Microsoft Excel, Data Modeling, Power Query
- **Web Development:** HTML, CSS, JavaScript, React.js
- **Database Management:** MySQL, MongoDB
- **Version Control:** Git, GitHub
- **Tools & Software:** Visual Studio Code, Microsoft Power Platform, Power BI

Projects

Travel Booking Web Application

Skills: HTML, CSS, JavaScript, React.js

- Developed a responsive travel booking platform using React and TypeScript.
- Implemented dynamic booking forms, payment gateway integration, and real-time animations.
- Created a comprehensive admin dashboard for managing customer bookings efficiently.

Interactive Employee Analytics Dashboard

- Designed and developed an interactive dashboard in Power BI visualizing key metrics such as Age, Daily Rate, and Distance From Home.
- Incorporated hierarchical filters (Department > Age Group > Employee ID) enabling detailed drill-down insights.
- Utilized DAX formulas to calculate KPIs and analyze departmental and education-level performance.
- Delivered a clean, dark-themed interface featuring custom visuals including donut, pie, and bar charts.
- **Tools Used:** Power BI, DAX, Custom Visuals, Hierarchical Filters

Certifications

Power BI (Udemy) Learned Power BI dashboard development, data modeling, and KPI visualization techniques.	15 Mar 2025
Python (Basic) (HackerRank) Assessed basic Python skills including control structures, loops, and functions.	22 Apr 2023
Python Programming (SkillDzire) Gained hands-on experience in writing Python scripts and solving real-world problems.	1 Jul 2024
Internet of Things (IoT) (NPTEL) Covered fundamentals of IoT architecture, sensors, and data flow in connected systems.	Jul–Oct 2024
Full Stack Development (Udemy) Studied end-to-end web development including front-end, back-end, and database integration.	15 Jan 2025

Education

- Bachelor of Technology (B.Tech) from Aditya University with an aggregate of 6.9 CGPA.
- X+2 from Board of Intermediate A.P with an aggregate of 76.60%.
- 10th from SSC of A.P with an aggregate of 78.67%.
